

Knauf Insulation OEM Solutions

March 27, 2026

Imminent price increase

Dear Sir or Madam,

the current geopolitical environment has introduced unforeseen challenges and is having a dramatic and extraordinary impact on the international energy and logistics markets. Rising energy costs and increased volatility are currently affecting European production. These developments have a direct effect across our operations.

Knauf Insulation is continuously monitoring the market situation and is implementing measures to mitigate the effects wherever possible however a proportion must now be reflected in our pricing.

Following increase will step in force with **May 1, 2026** and will apply to all deliveries:

OEM Rock Mineral Wool Products: +5,5%
OEM Glass Mineral Wool Products: +4,5%

Our supply chain remains robust and resilient, and we do not envisage any disruption to supply because of the current issues. Our goal remains unchanged: to ensure the reliable supply of our products, even under volatile market conditions.

Please note that this may constitute only the first phase, and further price increases may be required if circumstances continue to escalate.

We appreciate your continued trust and look forward to building on our partnership

Kind regards,

Knauf Insulation OEM Solutions

Michael Roskopf
Managing Director Systems Division

Miha Keše
Commercial Director OEM
